#### Introduction

In 2021, Sreepathy Institute of Management And Technology (SIMAT) achieved the noteworthy accomplishment of receiving a B++ grade accreditation from NAAC. This achievement was a momentous occasion celebrated by the institution's management, staff, and students. SIMAT is now actively preparing to pursue NBA accreditation as its next significant goal. The Self-Assessment Report (SAR) as intended by National Board of Accreditation (NBA) has been submitted for the Department of Computer Science and Engineering in May 2023. The expert team visit is expected soon.

The academic year 2022-2023 marked a period of remarkable advancement across academic, co-curricular, and extracurricular domains within the college. It is an honor to present this comprehensive report, meticulously detailing SIMAT's activities throughout the year 2022-23. This annual report provides an all-encompassing perspective on SIMAT's academic prowess, student-centric support infrastructure, and administrative mechanisms employed during this period. The performance of our students from the 2019-23 batches in the University Examination has shown a slight improvement compared to the previous year's outcomes. This enhancement can be attributed to the successful integration of beneficial tutorial sessions and the collective efforts of both faculty and students, reflecting their commitment and determination.

SIMAT has implemented scholarship programs aimed at benefiting students who have achieved exceptional academic scores, including those who have qualified through the KEAM examination. It is proposed to add more of courses related to the current era of information technology in the upcoming academic year. Some of the relevant courses are from Artificial Intelligence, VLSI and Advanced Communication.

#### **University Results**

The performance of our students from the 2019-23 batch in the University Examination has shown a slight improvement compared to the previous year. This progress can be attributed to the successful integration of impactful tutorial sessions, coupled with the diligent efforts and commitment of both the faculty members and students, which collectively contributed to the favorable outcomes.

It's wonderful to hear about the positive developments and progress of the college, especially amidst the challenges posed by the pandemic. The dedication and guidance provided by the Sreepathy Trust, staff members, and students are undoubtedly crucial factors in the college's growth. The emphasis on values like knowledge quest, innovation, personality development, and a strong sense of community among the SIMAT family are commendable aspects that contribute to the overall educational experience.

Having a clear vision of becoming a role model in technical education and the preferred choice for students, parents, faculty, and industry indicates a strong commitment to excellence and continuous improvement. As the college continues to work towards these goals, it's important to maintain the same level of dedication, quality education, and a nurturing environment for students.

Remember that creating a positive and inspiring learning atmosphere is an ongoing process that involves the collective effort of everyone involved – from leadership to faculty to students
