

Dear Sir;/Madam;

The Department of Training & Placements is extremely happy to inform you about the official lounge of 'B-Lap', (a cloud based integrated learning and self assessment platform for the students by BigLeap solutions PVT. LTD.) executed by our respected principal Dr. S.P Subramanian, by making the first official login into the platform on **05-07-2014 Saturday** 10.15 AM at the seminar hall.

Our college is the first institution in Kerala to introduce such a platform for the students .B-Lap is going to be a major mile stone in making our students '*placemat ready*' by giving the students an opportunity to train themselves and sharpen their aptitude/mathematical and other soft skills on a regular and continuous basis .This platform provides everything that a student might require to face placement processes with confidence .

By introducing such creative changes ,we may expect more results in terms of placements in the coming years. It is only because of the demonstration of keen interest and dedication of our principal and management towards the quality improvement of our students, despite of the huge financial commitments required, we were able to materialise B-Lap in SIMAT.

In the initial stage, the access to B-Lap will be provide to 20 selected students each from all the five branches(100 students in total).The access will be extended to more students based on the reviews.

Mr .Sabareesh from 'BigLeap Technical team' explained the students in detail about how to carry on with the platform.

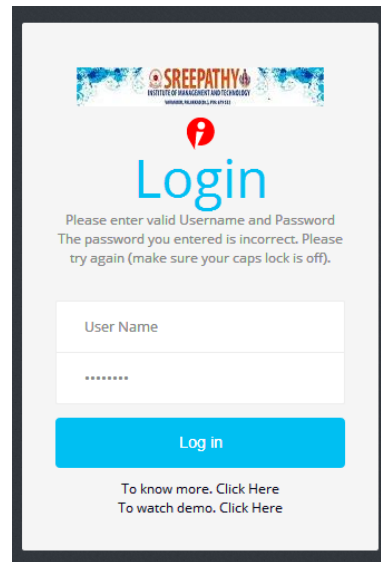

The Students can click on the following image on our website and provide their individual username and password for logging in into the platform.

Cloud based Integrated
Learning and Self
Assessment Platform
