### **Online Test Instructions -For UST Global**

- To start the online test candidates should enter user id, password and a passkey.
- User ID and Password will be shared to you three days advance so that you will get enough time to share it to the candidates.
- Passkey will only be shared on the day of event.
- There will be 4 different sections with 15 questions each. That means, the candidates will have 60 questions to be answered in 60 minutes.
- There will be a separate minimum cut off for EACH section. So, it is important for the candidates to attempt all the four sections equally, to get into the next round.
- There will be NO negative mark for wrong answers.
- Students can switch between the sections / questions or change your answers as long as they have not submitted the test.
- At the expiry of 1 hour, the test will be auto-submitted. In case the candidate want to leave the hall before that, they need to click the submit button.
- Once they start the test, he /she must remain in the test window all the time.
- Candidates are not allowed to switch to any other window. This will be monitored online and any candidate found to deviate from this will be disqualified in the test.
- Online calculators, mobile phones, or any other electronic devices are not permitted in the lab.
