SREEPATHY College of Engineering, Vavanoor

ECE Department

Add on course Details

Date	Topic	Sub Topic
21/07/16	The First C program	What is C Getting Started with C The C Character set Constants Variables and Keywords Types of C Constants Rules for constructing Integer, Real constants Types of C variables C keywords C Instructions
25/07/16	The fundamentals in C	Integer and Float conversion Type conversion in Assignments Data Types Revisited Storage classes in C The decision control structure The switch statement Loops
26/07/16	Arrays and functions	Array handling 2-D Array 3-D Array string standard library string functions Function passing values between functions
27/07/16	Programming winding up Introduction to circuit simulation	C programming PSpice Introduction
28/07/16	Circuit Simulations	PSpice in detail
