

3 days Training program on APTITUDE MODULE by ICT Academy  
,Kerala for S8 Students

A 3 days training program on APTITUDE MODULE exclusively was conducted in SIMAT from 08-02-2017 to 10-02-2017 for the opted students through the ICT Academy, Kerala. The subject was conceived in the context of the final year student's need to appear for the placement drives and the associated selection processes of various recruiters today.

- The department heads, placement committee members and other staff concerned deserve high appreciation for the kind cooperation and prompt responses in organizing the activities.
- The subjects covered were of high relevance consisting of Numerical reasoning relating to time and work, ratio and proportion, boats and streams, time and distance ,partnership, ages . etc. and Logical reasoning pertaining to Seating arrangements, Coding/decoding/ blood relations, Syllogisms, letter series, . etc., handled by ICTA experts.
- The confidential feed back taken from the students after the complete sessions indicated high level of satisfaction and commendable utility of the module.
- The trainers wholeheartedly appreciated the enthusiasm and discipline that our students have maintained throughout.
- Apart from the course materials, participation certificates were distributed to all the students who have attended the program.

Advise to the participants requiring extra training were also communicated .
